SNOW DAY FUN MENU

for 4th Grade

DRAW	Draw a snow globe containing a creative landscape. Your picture must include a foreground, middle ground, and background.	Bring the drawing in on our next art day or post a pic to Google Classroom.
BUILD	Build pyramids or towers out of ice cubes. Do it on a towel... ice melts- or better yet do it outside! Be a problem solver to make it taller!	Have your parent take a picture for evidence and email it to Mrs. M or post it to Google classroom. You should be in the photo too, for size reference!
DESIGN	Design the ultimate sled. Be sure to draw it from different angles to show all the unique features. (rocket boosters, automatic cocoa machine, etc... be creative!)	Bring the drawing in on our next art day or post a pic to Google Classroom.
MAKE	Make as many individually cut snowflakes from full sized paper (8.5 X 11) as possible. Each snowflake must be made from one paper (no confetti snowflakes please!)	Bring the drawing in on our next art day or post a pic to Google Classroom.
IMAGINE	Imagine a world where something ELSE (besides snow) fell from the sky today (candy, cats, coffee...you decide!) Draw or paint what that place would look like.	Bring the drawing in on our next art day or post a pic to Google Classroom.
CREATE	Go outside and build a snow sculpture! You don't have to build a snowman. How about a snow dog or a snow t-rex? Use branches for a spiders leg or a scarf for a cat collar? Be creative!!!!	Have your parent take a picture for evidence and email it to Mrs. M or post it to Google classroom. You should be in the photo too, for size reference!
